

## **Electric Daisy Carnival: Music beneath the stars**

EDC Las Vegas: Where dreams become a reality

Calling all night owls and electronic dance music enthusiasts!

Prepare to embark on an electrifying journey through a psychedelic wonderland filled with neon colors, pulsating music, and dazzling lights! With never before seen activations, impeccable light shows, and a stellar lineup, this year's event will be like nothing you've ever experienced before. From May 17th to the 19th, EDC Las Vegas will be the place to be.

Gather beneath the Electric Sky with friends and family to celebrate music, art, and love. Each stage is designed with diverse light fixtures and sound systems, creating an atmosphere that feels straight out of a dream. Get to see your favorite electronic music artists, dance to your favorite music, and take your senses to a new height with this year's line-up and out-of-this-world art installations.

Party alongside headliners such as Above & Beyond, 12th Planet, Afro Jack, Alison Wonderland, and more. Beneath the electric sky with your favorite artists, EDC Las Vegas will leave you wanting more.

Our activations for this year's festival aim to replicate the Aurora Sky by painting the Las Vegas sky with the shining, dazzling colors of the Northern Lights through light and laser projections. We'll take attendees back-in-time with our "time travel tunnel," a trippy experience that allows music lovers to walk through time, seeing and hearing the top tracks of each decade with each step.

Let go and be yourself! At EDC, we embrace diversity and welcome people from various ethnic backgrounds, races, and the LGBTQ+ community. Nobody should feel left out, there is a place for everyone at EDC Las Vegas. This is a safe space where you can let go of your worries and immerse yourself in a dream world free from judgment.

We can't wait to see you in your radiant outfits and lively personalities, ready to make unforgettable memories during one of the best weekends at our music festival.

See you beneath the Electric Sky!
